

**[China Machine parts,china sewing machine parts,machine spare parts  
Manufacturer, Supplier, Factory, Exporter in china](#)**

You may source customized parts from Ningbo Zhenhai Xinxie Machinery Co.,Ltd, with particular specifications and expectations. You may refer to our north American or European customers for our status. Some of them has established long term relationship with us for more than 10 years. They can demonstrate the level of quality and service we offer.

You can find the seven disciplines of precision machining are strictly performed in Ningbo Zhenhai Xinxie Machinery Co., Ltd.:

- 1) machine geometry and construction,
- 2) motion control,
- 3) thermal growth and environmental control,
- 4) spindle technology,
- 5) tooling selection and application,
- 6) machining strategy,
- 7) real-time performance monitoring and correction.

You can rest assure that all the cumulative effect of errors in these seven steps must not exceed  $\pm 0.0005$  over the volume of the certain work piece. You can reduce significantly the impact on machining performance of the errors associated with each discipline.
